# **Project Planning Phase**

# **Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)**

| Date          | November 2022                         |  |  |
|---------------|---------------------------------------|--|--|
| Team ID       | PNT2022TMID22142                      |  |  |
| Project Name  | IoT Enabled Smart Farming Application |  |  |
| Maximum Marks | 8 Marks                               |  |  |

## **Product Backlog, Sprint Schedule, and Estimation (4 Marks)**

Use the below template to create product backlog and sprint schedule

| Sprint   | Functional<br>Requirement (Epic) | User Story<br>Number | User Story / Task                                                                                         | Story Points | Priority | Team<br>Members |
|----------|----------------------------------|----------------------|-----------------------------------------------------------------------------------------------------------|--------------|----------|-----------------|
| Sprint-1 | Registration                     | USN-1                | As a user, I can register for the application by entering my email, password, and confirming my password. | 2            | High     | Syed Kabeer     |
| Sprint-1 |                                  | USN-2                | As a user, I will receive confirmation email once I have registered for the application                   | 1            | High     | Gokul R L       |
| Sprint-2 |                                  | USN-3                | As a user, I can register for the application through Facebook                                            | 2            | Low      | Gopi Krishnan   |
| Sprint-1 |                                  | USN-4                | As a user, I can register for the application through Gmail                                               | 2            | Medium   | Vigneshpathy    |
| Sprint-1 | Login                            | USN-5                | As a user, I can log into the application by entering email & password                                    | 1            | High     | Gokul R L       |
|          | Dashboard                        |                      |                                                                                                           |              |          |                 |
|          |                                  |                      |                                                                                                           |              |          |                 |
|          |                                  |                      |                                                                                                           |              |          |                 |

### **Project Tracker, Velocity & Burndown Chart: (4 Marks)**

| Sprint   | Total Story<br>Points | Duration | Sprint Start Date | Sprint End Date<br>(Planned) | Story Points<br>Completed (as on<br>Planned End Date) | Sprint Release Date<br>(Actual) |
|----------|-----------------------|----------|-------------------|------------------------------|-------------------------------------------------------|---------------------------------|
| Sprint-1 | 20                    | 6 Days   | 24 Oct 2022       | Oct 2022                     | 20                                                    | October 2022                    |
| Sprint-2 | 20                    | 6 Days   | 31 Oct 2022       | 05 Nov 2022                  |                                                       | November 2022                   |
| Sprint-3 | 20                    | 6 Days   | 07 Nov 2022       | 12 Nov 2022                  |                                                       | November 2022                   |
| Sprint-4 | 20                    | 6 Days   | 14 Nov 2022       | 19 Nov 2022                  |                                                       | November 2022                   |
|          |                       |          |                   |                              |                                                       |                                 |
|          |                       |          |                   |                              |                                                       |                                 |
|          |                       |          |                   |                              |                                                       |                                 |
|          |                       |          |                   |                              |                                                       |                                 |

### Velocity:

Imagine we have a 10-day sprint duration, and the velocity of the team is 20 (points per sprint). Let's calculate the team's average velocity (AV) per iteration unit (story points per day)

$$AV = \frac{sprint\ duration}{velocity} = \frac{20}{10} = 2$$
